

Appetisers

snacks revyve's high performing texturizing ingredients for **stretchy & crunchy hot snacks**

Perfectly golden, savoury crunch

Allows even browning and adds highly palatable umami flavor and crunch to non-coated products.

Stretchy, cheesy cores

Creates superior string and stretch for irresistibly cheesy experiences.

Naturally firm, hot or cold

Prevents shape deformation and leaking during frying and keeps stable after cooling

All of revyve products are:

Upcycled

Vegan

Natural

Clean label

REVVE VITALITY

REVVE ADVENTURE

Why compromise on the texture of future food?

Our yeast protein solutions are upcycled & sustainable

Our yeast protein solutions are produced from food production side-stream sources.

With an industry increasingly focused on protein diversification, we offer a high performing solution with a highly sustainable footprint.

Innovating natural ingredients, to offer reliable solutions for the foods of tomorrow

Sustainability and natural foods are growing consumer trends.

Our products are not classified as novel ingredients, offer a clean-label solution and don't suffer from seasonal price fluctuations and supply constraints as much as animal proteins.

95% less CO₂

80% less land use
