	GEN-03a Food Safety & Quality Policy Statement	v2.0 10/04/2025

At Revyve, food safety and quality are fundamental to how we design, produce, and deliver our ingredients. We create innovative, functional yeast-based ingredients for the food industry. We recognise our responsibility to deliver safe, high-quality products that meet the expectations of our customers and the requirements of the law.

We are committed to the following:

- Supplying safe, high-quality, and sustainable ingredients, produced under clearly defined and controlled processes
- Complying with all applicable food safety, legal, and customer requirements
- Maintaining an effective food safety and quality management system, supported by documented procedures, monitoring, and controls
- Providing the resources, training, and leadership necessary for all team members to contribute to food safety and quality
- Engaging in open communication with stakeholders and proactively responding to food safety risks and opportunities
- Monitoring our performance and setting clear, measurable objectives to support continuous improvement
- Reducing waste and environmental impact through efficient and responsible use of materials, energy, and water
- Developing a strong food safety and quality culture across all levels of the company

Revyve is certified to the FSSC 22000 food safety management standard. We are committed to maintaining this certification as we grow, and to continually improving the effectiveness of our FSMS. Revyve also holds Halal and Kosher certification for relevant products. We ensure that sourcing, production, handling, and documentation comply with recognised Halal and Kosher standards. Religious compliance is verified through external certification and internal controls as part of our Food Safety Management System.

This policy is communicated to all employees, is available to stakeholders, and is reviewed annually by Revyve's senior leadership to ensure it remains relevant and effective.

Signed:
Cedric Verstraeten

Chief Executive Officer
